(54) MEDIUM FOR PRODUCING RECOMBINANT PROTEIN

(57)Abstract:

PURPOSE: To provide the title medium virtually free from serum protein, for incubating transformed animal cells capable of producing desired recombinant protein prepared by using the gene recombinant technique.

CONSTITUTION: The objective low-protein or non-protein medium characterized by containing a nonionic surfactant or cyclodextrin, a medium for incubating transformed animal cells capable of sustainedly producing desired protein prepared by using the gene recombinant technique.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
